

# Welcome to the U-Multirank Student Survey!

## Your opinion is important.

U-Multirank is a global transparency tool that wants to give information to future and mobile students helping them to make an informed choice on their university/higher education institution on an international scale. It is published annually. The next edition, for which this survey will be used, will be published in summer 2022. The results of the previous phases can be found at [www.umultirank.org](http://www.umultirank.org).

Students' judgements and reviews of their own institution and programme play an important role in informing prospective students. Therefore, we ask for your opinion on several aspects on the conditions and quality of your studies.

Taking part in the survey is optional and **anonymous**. The password for the questionnaire is derived randomly; there is no connection to your person. The necessary information for accessing the questionnaire was distributed by your university. Data is used only for the U-Multirank project.

Filling in the questionnaire will take about fifteen to twenty minutes time.

In order to start the questionnaire in **English, French, German, Greek, Italian, Polish, Portuguese, Russian, Spanish, Turkish or Ukrainian** please click the button next to "I agree to the processing of my personal data in accordance with the information provided herein".

### Why do we collect and use your data

The U-Multirank web-tool is user-driven and both valuable for benchmarking between higher education institutions and for students seeking advice on where to study. Since the opinion of students is essential for the decision of the students, this survey asks students for their opinion about their studies.

We would be very happy if you took part in the survey!
